

## List of Doctors and Hospitals in Hessen

**The Frankfurt Consular District includes Hessen, Rheinland-Pfalz, Baden-Württemberg  
Nordrhein-Westfalen and the Saarland in the Federal Republic of Germany.**

(Update: August 2009)

The following is only a partial list of English-speaking medical professionals in the Frankfurt Consular District. The choice of a physician is a personal matter and the American Consulate is not in a position to make specific recommendations. The American Consulate General assumes no responsibility for the professional ability or integrity of the persons whose names appear on this list. The names are arranged alphabetically by city (according to field or specialty), and the order in which they appear has no significance.

**Important!** American Citizens living or traveling abroad should be sure they have adequate medical insurance that will cover expenses incurred abroad. Medicare and Medicaid are only valid in the United States. Some private American medical insurance companies will pay for expenses abroad, but most require that the patient pay the bill first, then file for reimbursement. It is common practice in Germany for health care providers to expect payment up front before providing services to individuals not covered by the German health care system. The United States Consulate General does not have funding to help cover medical expenses of American citizens in Germany.
